To whom it may concern:

My experience with [www.SkyshiftGlobal.com](http://www.SkyshiftGlobal.com)

Approximately one month ago, I answered a phone call from a man named Ahmed with an accent that sounded like he was from Pakistan. Against my better judgment, I politely listened to what he had to say.

First, he reminded me that I did not have a website. That was true, so obviously he did his research. Next, he offered to create a website for me. Somewhere in that conversation, he gave me the price, which I found very reasonable.

I found his company, Sky Shift Global, to be a very honorable, trust worthy company. They are hardworking, honest and do exactly what they promise a customer. They stay in communication with you to make sure you are pleased as they build your website.

After creating a very professional website for me, they are now using their skills to connect my website to other important social media outlets such as Google, Facebook, Linked In, and Instagram. In addition, they are getting my Google profile up higher in the calling order so search engines will pull up my Google profile more often. Finally, they are assisting in creating a blog, which creates further trust in my practice. All this at a reasonable price.

If you are searching for a website company to assist you, look no further. These guys are an answer to my needs and probably your needs. Hire them!

Respectfully yours,

Ashley Burleson  
Attorney at Law
